

why donate

Many of our students - both at Community College Gippsland and Education Centre Gippsland College - choose us because *we are different.*

In addition to providing quality education, we provide advice, support and empowerment. Our focus is not on classroom numbers but classroom outcomes.

We don't just want our students to graduate. We want them to grow!

This philosophy and style of delivery makes us an attractive option for students who may not attend school otherwise.

When you have a hard time, at school or in life, it takes courage and commitment to try again. It also takes resources, and for many of our students, these can be hard to find.

Transport, classroom materials, trade equipment, books, technology, excursions and fees all bear a cost that many would-be students simply cannot meet.

You can help close the education gap and enable these determined students to re-engage in education within a school that is driven to support them to succeed.

philanthropic FUND

what we need

Community College Gippsland is raising funds to purchase a *mini bus* that can transport students to off-campus learning opportunities.

At present, excursions require us to hire additional vehicles, increasing the costs of delivering our courses and limiting opportunities to work in other spaces, including community spaces.
